fers in proper temper to the late withdrawai of that country. of the Mexican minister, and expresses a hope that his government will take a more dispassionate and just view of the subject. The result of the confidential enquiries into the condition of Texas is promised during the Session. Then follows the part of the message contained in our columns. After which follows an argument in favor of specie currency. and against the United States Bank.

The message next states that the object of the 'Treasury order' to receive only specie for public lands,was to check speculation in these lands, and that this object was measurably accomplished; and it recommends restricting the sale of public lands to actual settlers The President maintains that the deposite banks have answered a better purpose than the U. DR PETERS VEGITABLE ANTI BILLIOUS PILLS These Pills need but a trial to recommend

They are purely vegetable and well calculated for the removal of all Billious complaints.

They act specially upon the Liver, when in a torpid condition, carrying off a large quantity of bile, through the influence of the excernent func. tion, which, if suffered to remain in the system, would produce either Jaundice, Liver Complaint, Billious Fever, Fever and Ague, or some other grievous bodily affliction. In al' cases of torpor of the bowels, they act like a charm. In recent cases of Dyspepsia, they are a certain cure. Many persons who were subject to violent attacks of sick head ache, have been much benefitted, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Billious complaints. Persons who are subject to that distressing complaint, sea sickness, by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at any period, without incurring any risk. Persons going to sea, or to a southern climate, should by all means take some of these Pills with them .- Their virtues will repagin unimpaired for years in any climate. No family should be without these Pills; a portion of them, taken occasionally would be the means of preventing much suffering from sickness. It is from neglect of keeping up a regular perisialtic action of the stomach and bowels, thus suffering similated fluids, that most diseases are produced Dr. P. feels confident that no person who gives these Pills a fair trial, will ever after feel willing to be without them. The testimony of thousands speaking in the highest trrms of their efficacy, might be added, but the very high reputation Dr. P. has acquired as the inventor of the "Patent Vegetable Medicina Stomochica et Heputice," for the cure of Dyspepsia and Liver complaints, is thought a sufficient guarantee to those wishing to make , trial of their virtues. They contain not a particle of Mercury, or any

ingredient that does not act in harmony with health and oppose disease. Dr. P. wishes it distinctly understood, that these Pl'ls possess beneficial qualities independent of their purgative effects ; they are both tonic and deobstruent, acting upon the secreting and exhalent functions; thus strengthening the patient, while they remove obstructions -- Medicines which possess no other, excepting cathartic qualities, debilitate the patient, and their repeated use lays the foundation of a long catalogue of Chronic Diseases.

Dr. P. having been educated under the most eminent American and European Medical professors, and practised his profession many years in the South, where diseases of the most obstinate character prevail, considers himself well qualified to judge on the nature of diseases incident to warm climates.

Prepared by Joseph Priestly Peters, M. D. P. B. C. P. M. at his Institution for the cure of obstinate diseases, by means of vegetable remedies, No 129 Liberty street, New York, inventor and sole proprietor. Each box contains forty Pills. Price
